

1937 YOEMEN GET AUGUST CALL

No community and no state ever became fully prosperous through agriculture alone, declares T. R. Preston, former president of the American Bankers Association, who is a strong advocate of combining industry with agriculture by locating factories in the smaller communities.

Mr. Preston cites particularly the small cities and towns of North Carolina, Pennsylvania and Ohio as affording excellent examples of such combination. He points out that industry and agriculture are well balanced with the result that the farm problem is less acute in those states.

The idea of locating new factories in towns and villages, instead of further concentrating them in congested centers of population, is spreading throughout the country, and some of the largest factories are now so located. An example is Kinsport, Tenn., with only a few thousand population, yet boasting the largest book printing plant in the world, besides other important industries.

The benefits derived from this decentralization of industry is seen in an increased market for local farm products, employment of surplus labor, elevation of living standards for both farmer and factory employe, increases in taxable wealth, better schools and other public facilities.

Those credulous and unsophisticated souls who take the speeches of their Senators and Congressmen seriously may have been rudely jarred if they read a statement once made by Senator Glass of Virginia, who said:

"In all my experience of 30 years in Congress, I have never known a speech to change a vote."

While this is a rather broad assertion, it is practically true. A large percentage of the speeches printed in the Congressional Record are just so much hot air. Many of them are never delivered at all, but are written out and printed for distribution "back home" for the purpose of impressing the voters with the great statemanship of their authors.

Aside from a few notable exceptions, the sole aim in life of Senators and Congressmen is to get re-elected. Every utterance and every vote is directed to that end.

Therefore, oratory of colleagues does not influence them very much. They are thinking always about what their own constituents will say, and vote accordingly regardless of anybody's speech.

A reading lamp that cools the reader by means of a four-bladed silent electric fan mounted just above the light bulb was invented recently by E. G. Shinner of Chicago. The unique lamp was one of the features of the recent Merchandise Mart lamp show.

Designed to sweep the cooler air from the floor of a room the fan's horizontal blades draw this air through the vented opening which surrounds the top of the shade. In this way the steady flow of heat given off by the light bulbs is in this lamp carried off through the shade, rather than falling about the reader's head and shoulders. The fan, moreover, does not blow a direct blast on anyone in the room, but in blowing directly ceilingward dispels such odors as tobacco smoke.

The lamp has several other interesting uses such as for a bedside lamp when, during the night, the lights are turned off but with the fan kept running for cooling and proper ventilation. Here again the sleeper does not have a direct blast blowing on him and therefore any possibility of contracting neuritis is completely eliminated. Physicians and health authorities who have examined the fan-lamp have approved it on this score. The lamp is also adaptable to office use.

Julius Pokorny of Taylor was arrested and held for drunk driving following an accident here Saturday night. His car struck a machine driven by N. C. Gilbert of Austin.

Jean Harlow's Last Picture 'Saratoga' Opens at Cameron Theatre Sunday

A gripping romance, comedy, some of the finest character portrayals in years, and thrills of a thundering racetrack are high-lights in "Saratoga," the picture that brings Jean Harlow and Clark Gable to the Cameron Theatre Sunday and Monday August 22 and 23.

Never was Jean Harlow lovelier. Never has the virile Gable been given a greater opportunity than as the "square" gambler and bookmaker in the new racetrack story, penned by the authors of "San Francisco," Anita Loos and Robert Hopkins. Jack Conway's deft direction is apparent at every moment.

"Saratoga" tells the story of the spoiled daughter of a wealthy horseowner, and a gambler and bookmaker whom she first hates, fights, then loves. The background of the swift action ranges from penthouses and a London hotel to a Kentucky horse farm, the Saratoga racetrack, and famous races on tracks in various points of the United States. The final racing climax, photographed by special equipment, provides a genuine thrill.

Metro-Goldwyn-Mayer gave the picture an elaborate cast. Frank Morgan and Una Merkel are seen together as a comedy team for the first time, and more laughs as well as a (Turn to page 5)

BODY MYSTERY MAY BE SOLVED SOON

A report from Austin that leaves found in a rat nest in the rib cavity of the mystery body found in an alley at the north entrance of the Herald plant are from oak trees discounts the first statement that the leaves were from trees not grown here.

Indications were the origin of the body might be placed. Criminal District Attorney Camp was in Austin Saturday in conference with M. T. Gonzallus and was told the leaves were oak leaves. Several thousand pieces of newspaper and shucks had been taken from the nest in the body. Bits of a New York newspaper dated 1914. A Houston paper and Cameron paper fragments were found. The Houston paper date was 1928 and a 1930 date was also found on one of the fragments.

Doctors indicated they might make a final report this week.

GOOD RAIN FALLS AND DAMAGE SLIGHT

Two inches of rain fell in Cameron Sunday afternoon, also a light shower fell Monday.

The fall was over a comparatively small area and no damage was done to cotton. Rain is badly needed for young cotton and where the water fell Sunday benefits are reported. The rain was heavy southeast of Cameron and north of the city.

CONFESSES

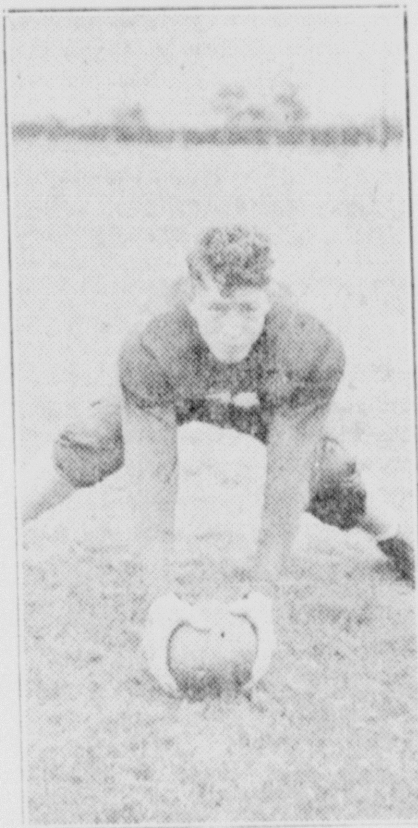

Frank Posival, Jr., has confessed to District Attorney Camp that he forged two checks in May on Gus Gonton, farmer in the Edgeworth community. One of the checks was passed at Cheeves Bros and the other at the Patillo grocery.

Tax Rate May Get Hike in County

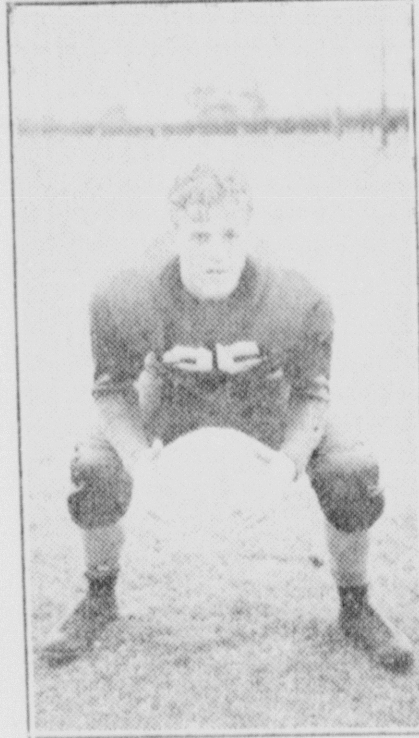

An increase in taxes in Milam county to bolster the general fund to pay salaries of county and district officials, may be necessary if the county is not returned to the fee system, it was said by County Auditor C. R. Isaacs.

It was necessary to draw on the county general fund in the sum of about \$18,000 last year because salaries were paid from the treasury.

Amendment Election Tuesday, August 23rd; Herald Explains Provisions Of Six Changes Proposed In Constitution of Texas

Tuesday, August 23rd, the people of Texas will vote on six proposed amendments to the constitution. The date may work a hardship on rural voters. The advantage will be with the cities. Most of these amendments should be defeated and the farm vote will be necessary. Be sure to go to the polls on Tuesday, August 23rd. Polls open at 8 a. m. and close at 7 p. m.

AMENDMENT NO. 1

Amendment No. 1 as shown on the ballot does not give the voter the desired information. In brief this amendment relieves stock holders of State banks of double liability in case of failure of the bank. When the federal government set up its guarantee of deposits all national banks were automatically protected in the matter of guarantee of deposits and stock holders were relieved of double liability.

Liability means that if a bank fails those who own its stock are required to pay a sum in cash equal to the stock they hold. The patriots who wrote the constitution believed this additional guarantee was necessary to protect depositors who trusted the soundness of the bank.

There are dozens of state banks in Texas where there is one national bank. State banks may become members of the Federal Deposit Guarantee system. Only a few in (Turn to page 7)

SKELTON PLACED ON ATHLETIC COUNCIL

Willard B. Skelton has been named a member of the Athletic Council to succeed Bassett Watson.

Mr. Skelton's appointment was regarded here as a strong placement for the Council. He was President of the Band Parents Association with great progress resulting.

Mr. Skelton was the first man to advocate the park and band tax. He was then Secretary of the Chamber of Commerce. His civic work has been notable and he is also strong for a balanced program of athletics.

COACH WOOD SOUNDS TOCSIN OF WAR FOR GRID BATTLES SOON

Yellow leaves are falling down to the earth. There is a haze in the sky only fan can see. It is the call of September.

Coach Carroll Wood comes through with the first call for volunteers and the foot ball minded will be thinking in terms of colorful days and nights.

From Alpine yesterday the Editor's mail brought an announcement from Coach Wood. He has selected his captains for the year. Homer Chambers will be Captain in the line. In back field Harry Kennon and Floyd Hatch will share the honors of Captain. These men will alternate as head captain for each game.

Members of the squad from 1936—and there are few—along with all football boys who wish to try for the Yoemen team this fall are asked to meet Coach Wood at the field at 8 o'clock Monday night August 30th. It will be the annual get together meeting. The Coach will make a talk to the men and fans. Practice will start next day August 31st.

Coach Wood wants all boys who feel interested to attend the meeting. Fans are welcome also.

Assistant Coach Pank Bennett said yesterday that there are a number of boys from the rural district who are eligible and they are especially urged to attend the meeting on August 30th. Mr. Bennett wants every available man from the country to report for the first meeting.

LEGION MEN MEET TUESDAY NIGHT

The American Legion held its social meeting Tuesday night at the hut in the park. About 40 members attended. In the first part of the evening 42 was played and the Legionnaires exchanged greetings.

Commander Woodruff called the meeting to order for business. A report from the committee said a bus had been obtained for the excursion to the state convention but due to uncertainty of time members would leave Cameron the post will be unable to charter the bus.

J. D. Baskin was introduced and made interesting talk on the work of each of the past commanders who were to receive the Past Commander Jewels. Those who received Jewels were: John Sapp, 1934; Grady Little, 1935; Lee Clore, 1936. Each expressed appreciation.

As a surprise event Grady Little presented Mr. Baskin a Past Commander's Jewel.

Project Houses at A & M Big Aid to Deserving Boys; Milam and Falls Are Completing New Unit for Fall Term

The Herald here presents an interesting statement from Raymond Helpert of Burlington regarding the Project Houses at A & M. Boys from Milam and Falls County will occupy their houses this fall. It has been completed and is now being furnished.

Parents of Milam county boys will be interested in what Mr. Helpert has to say as follows:

Co-operative Plan

1. Program was started in 1932 and has grown rapidly from a small group to some 750 boys.

2. Each project is usually sponsored by organizations within the county (the students in a project are usually from the same county.)

3. Each house has a matron who cooks the meals and supervises the group in general.

4. All expenses are met co-operatively. Groceries are purchased from Dr. Russell who is the director of the project houses. He purchases them and sells them to the groups at wholesale prices.

5. Farm produce, such as eggs, butter, meats, etc., may be brought from home to help the student meet his pro rata share of the expenses. Balance must be made up in cash.

6. Expenses per month per boy range from \$10 to \$14. This does not include books, uniform, etc.

COMING ISSUES

(Editor's note: This article is published as a news item and represents the personal views of Mr. Ferguson only.)

The issues in next year's campaign are beginning to materialize. It looks like now that the Old Age Pension will be the main issue, and sales tax will be next. Then as a result of the disposition of the pension and sales tax issues may come the settlement of the ad valorem tax on property.

The Old Age Pension people already have blood in their eyes and they are going to demand that all candidates for the Legislature declare themselves before the election. It will not be enough for the candidate to say that he is in favor of Old Age Pensions; but he will be put on the spot and a positive demand for a particular plan of how he is going to pay the pension. Following this will be a further demand for what restrictions, if any, will be put on the right to draw a pension.

The candidate who says he is for the pension plan and doesn't provide a way to pay the pension will be told that a pension if not paid is not worth a tinker's damn. The candidates will be further told that if there is any red tape or other restrictions than those in the constitution governing the right to draw a pension that he had just as well go way back and sit down. Already some of the candidates are trying to dodge the issue by saying that they want to give a pension, but only to the needy. This will not satisfy. The issue is going to be: full pensions or not. Which will they get, the pensioner will demand.

The Governor will seek to satisfy the issue by talking about a gross income tax, a luxury tax and the natural resources tax; but the voter will refuse to be comforted unless they are told in plain language just how many millions of dollars they are going to pay pensions. If we pay the pension provided under the constitutional amendment voted by the people, it will take at least 40 million dollars and nothing else will satisfy.

This whole tax trouble can be settled if the Legislature will meet the issue. The Legislature is to meet soon, and I here and now tell them how they can save a lot of trouble for themselves and have the tax payers' good will if they have got the guts to meet the issue. Let them levy a sales tax of two per cent on all commercial sales and that will produce 40 million dollars with which to pay all the pensions over 65 years of age otherwise eligible, and that will settle that question. Let the county judge of each county with the aid of the county clerk name the pensioners in their respective counties who are eligible under the constitution. Then abolish this nuisance liquor board and turn over the collections of the liquor and cigarette tax to the county collector and the sheriff and then let the proceeds from these sources pay the present burdensome ad valorem tax on property. The money available from these funds will more than pay the ad valorem tax if the present extravagance of collection is abolished.

I hope my friends in the Legislature in the coming called session will declare themselves upon these tax matters, as I have set forth and thereby save themselves a lot of trouble next summer. I don't make any extra charge for telling the Legislature just how the thing can be done, but I am writing these lines in order that we may hereafter have a record of who pointed the way to solve our tax troubles. The boys can either take it or leave it, but believe it or not, this is the way that the people are finally going to demand the settlement of the tax issue. I don't claim to be much smarter than anybody else, but we have had enough dodging of the issue and for the good of the country, I am taking the liberty

GRANGER WOMAN IS
SLAIN AT BEER BAR

Granger, August 10—Mrs. Charles Benad, 30 was shot to death and Lee Gunn, son of City Marshall F. E. Gunn, was wounded here at 6:30 o'clock tonight in a filling station and beer tavern shooting that had Central Texas officers combing the thickets of Possum Creek bottom through the night for Ralph Salyer, who was charged with the murder.

J. O. Salyer, father of Ralph, also named in the murder charge, was captured shortly after the shooting and held at Georgetown, although officers said it appeared he had no actual part in the shooting.

Began Fighting

Officers said that J. O. and Ralph Salyer went to the combination filling station and beer tavern operated by

Mrs. Benad late this afternoon, apparently for J. O. Salyer to apologize for a disturbance in which he and another son, Harold, were involved at the same place about two weeks ago. A disturbance charge was filed after the earlier trouble by Bernice Latham, a waitress at the tavern.

After apparently remonstrating with Ralph Salyer, who was arguing and protesting against his father's apology, Lee Gunn and Salyer began fighting, each being knocked down several times. Mrs. Benad was said to have been struck by Ralph Salyer.

Came Out With Gun

Going into the tavern, Mrs. Benad came out with a .38 calibre revolver, witness said. Apparently to forestall shooting, J. O. Salyer took the gun from Mrs. Benad, but his son jerked the gun away from him and opened fire on Gunn.

Gunn's life was probably saved by a heavy leather belt he was wearing, one bullet glanced off the belt and another shattering his right thigh bone.

Mrs. Benad was shot at next, one shot being fired, passing through her body.

Son Leaves on Foot

Ralph Salyer, witnesses said, then jumped into his car and tried to strat

it, but could not. He ran off up the road. His father then managed to start the car, and tried to find his son, who had left the road and taken to the creek bottoms, in the direction of his home some eight miles away.

City Marshal Gunn, Constable A. J. Moore of Granger, and Taylor and Georgetown officers joined in the search through the night.

The murder charges were filed in Justice of the Peace M. B. Colbert's court where the earlier charge against J. O. and Harold Salyer was filed.

Mrs. Benad's body was being held at the Sullivan undertaking company, pending funeral arrangements. Surviving her are two daughters, her father and her estranged husband.

Mrs. Henry Dakel, Mrs. L. F. Slama and Mrs. Lucas spent Wednesday in Lott guests of Mrs. Dakel's daughter, Mrs. Robert Busker.

Mrs. Steve Marak, Jr., Misses Edna and Mollie Mae Lazek were visitors in Temple, Wednesday.

LOADING RUBBER ON SMALL BOATS IN LIBERIA FOR TRANSPORTATION TO OCEAN FREIGHTERS

From the Firestone plantations in Liberia comes an ever-increasing supply of the world's finest rubber. Money saved here and in manufacturing and distribution enable Firestone to sell a safer, first-quality tire at lower prices.

IN THE Firestone Standard Tire, you get extra value in the form of extra safety. It costs more money to build a safer tire. But Firestone can build a first-quality tire made of top grade materials and sell it for less money, because Firestone controls rubber and cotton supplies at their sources, manufactures with greater efficiency and distributes at lower cost. YOU GET EXTRA PROTECTION AGAINST BLOWOUTS — eight extra pounds of rubber are added to every 100 pounds of cord by the Firestone patented Gum-Dipping process.

YOU GET EXTRA PROTECTION AGAINST PUNCTURES — because under the tread are two extra layers of Gum-Dipped cords. YOU GET EXTRA PROTECTION AGAINST SKIDDING — because the tread is scientifically designed.

YOU GET LONGER NON-SKID MILEAGE because of the extra tough, long-wearing tread.

Join the Firestone SAVE A LIFE Campaign today by equipping your car with a set of new Firestone Standard Tires.

We did the Cutting for You!

YOUR home service rates on electric energy have been cut 4 times since 1927 and we did the cutting! Voluntarily! For you! So you could enjoy the many new uses of more efficient electric service.

Perhaps you may say, "Well, you should cut your rates." Certainly! We accept that responsibility along with all the other obligations of honest-to-goodness public service. And, we meet that responsibility.

Your home service rates are lower than those in many much larger cities located in more thickly settled sections of America!

They're lower because of the good management and the efficiencies of the transmission line power service of this Company. They're lower in spite of the fact that our taxes, our materials costs are higher, and our payroll larger.

Your taxes are higher . . . your living costs generally are higher . . . but, your home service rates are cut 39% and we did the cutting!

O. B. HORSTMANN GETS BOARD APPOINTMENT

O. B. Horstmann, business man here, was named to the Cameron School Board and W. B. Skelton, civic leader was named a member of the Athletic Council.

Vacancies have existed in both bodies for several weeks. The Athletic Council was reduced in membership by the dismissal of Penn Wolf, S. A. Cottle and Alvin Mondrik. Its present number was depleted by one when Bassett Watson left Cameron to take a place with the Texas Power & Light Company in Sherman.

The School Board met Thursday, August 12.

Resignation of Miss Dorothy Langdon, assistant Home Making teacher was presented and accepted. She is entering hospital work as a dietitian.

Miss Christine Miller of Beeville, a graduate of the University of Texas, was elected to fill this vacancy.

The matter of electing a trustee to fill the vacancy caused by the resignation of H. M. Acree was considered and O. B. Horstmann was elected to fill this position. W. B. Skelton was elected to fill the vacancy on the

athletic council caused by the resignation of Bassett Watson.

The date for the opening of school was set for Monday September 13. The Christmas holidays will begin with Thursday, December 23, with school opening again on Monday, January 3. Schools will close Wednesday, May 31.

The Board had previously elected Rush A. Thomas to succeed H. M. Akers. Mr. Thomas was one of the members who retired following the adoption of the elective system and the resulting political differences. He along with Mrs. Giles McDermott declined to run for re-election although both were urged by many.

Project Houses

(Continued from page 1)

7. The "project" students are under the same regulations as the dormitory students.

Falls and Milam Boys Have House

A project composed of Milam and Falls county boys has been in operation during the past two years. They have made an enviable record considering the condition under which they had to live the past years. This year they have secured one of the new project houses which the college has been erecting this summer. These houses are large enough to accommodate 32 boys each. They are all to be modernly equipped throughout with gas, hot water, refrigeration, etc. The college is furnishing the boys rooms with beds and study tables. The groups will have to furnish the kitchen and dining room themselves. Three Falls county organizations are sponsoring the group this year and they have started a drive for \$500 with which to furnish the kitchen and dining room. This amount is to be paid back to these organizations in four years, which would be approximately \$4 per student per year.

Low Rentals

The project will rent these houses from the college for the nine months of school at \$64 per month or \$2 a month per student. Half of the nine months rent is to be paid at the time school reopens. A student dropping out between this time and mid-term or beginning of the second semester forfeits his part of the rent unless he can arrange to have someone take his place whom the group will accept.

From experience it has been found very advisable to have project house applicants pay an entrance fee to meet initial expense. The initial fee for the past two years has been \$10. It has not yet been decided what the amount shall be this year. This matter will be decided at a meeting which is to be held in Falls county in the near future.

10 Boys From Milam

So far there have been 27 to 28 applications made of which about 10 are from Milam county. There is still room for a few more. If any boys still wish to enter the group they may see or write me as soon as possible.

Milam Should Help

Since there are several Milam coun-

ty boys in the group, we think Milam county should help sponsor the group along with Falls county. There are still several items which the Falls county people are not furnishing, such as gas heaters, dining room tables, etc. With the help of the County H. D. Club or some such organization this should not be a difficult matter. They could make the same arrangements with the boys as the Falls County organizations.

Clubs Sponsor

The three Falls County organizations sponsoring the project are the County H. D. Club, the Marlin Rotary Club, and I think the Lions Club of Marlin. Mrs. Louis Williams of the Milam H. D. Club is the chairman of the committee in charge of securing the funds. I am sure she would be glad to give you any information you would wish to have concerning this matter.

Thanking you for any services in regard to publicity of the enterprise, I remain,

Sincerely yours,

Raymond Helpert.

song are contributed by Cliff Edwards and his ukulele. Other players are Walter Pidgeon, George Zucco, Jonathan Hale, Hattie McDaniels, Frankie Darro and Henry Stone. Thousands appear in the racing and grandstand sequences.

One of the most interesting sequences takes place in Lionel Barrymore's horse-breeding farm where thoroughbred animals ranging from famous race horses to young colts all brought from stock farms in California, appear. One of the most dramatic scenes is that in which Miss Harlow, after triumphing over Gable and seeing him "go broke" through her activities, realizes that she loves him. Edward Ward provided the picture with an almost symphonic score, and the photography of Ray June, A. S. C., adds definitely to the effective dramatic situations.

"Topper" Class A High Life Comedy Opens Today at Cameron Theatre

One colorful phase of the exceptionally fine physical mounting given the Hal Roach-M-G-M feature comedy, "Topper," coming today and Friday at the Cameron Theatre, is the variety and number of famous night clubs and cafes that were constructed in a group setting on one of the sound stages at the Roach studios in Culver City.

The "Rainbow Club" represents a luxurious New York establishment with the musicians dressed in Argentine costume and rendering strains of a rumba.

Next comes the "Cafe Cubalebra" with a swing orchestra in full swing of the latest in tunes.

Then to the "Harlem Hot Cha Cafe" with a colored jazz orchestra making merry with the music typically American.

On to the "Hawaiian Hut" equipped with a Waterfalls Slide, so well known in the islands, and bringing forth the strains of the native music.

Last is "Tony's Place," a Greenwich Village spot with Bill, the piano player tickling the keys and introducing ballads.

Into these scenes whirl Constance Bennett and her screen husband, Cary Grant, in a round of gaiety and tuneful opening sequence to introduce the hilarious fun and arresting intrigue in the picturization of the popular Thorne Smith novel.

Director Norman McLeod was in full command in the maze of night clubs and the blare of changing orchestras after his recent success in handling the megaphone for Bing Crosby's "Pennies from Heaven."

Dramatic Story of China's Teeming Millions Told In "The Good Earth" Film Opening At Cameron Theatre Here on August 26

The Dramatic story of China's teeming millions, their struggles, their hardships, and the intensely human heartbeat of the great and little known nation, is transcribed from Pearl S. Buck's epic novel and the stage adaptation by Owen Davis and Donald Davis to the talking screen in "The Good Earth," starring Paul Muni and Luise Rainer, and opening August 26 at the Cameron Theatre.

Fruit of four years of research and preparation, of the work of a film expedition that passed a year in China filming exteriors, studying details and bringing back thousands of authentic properties—the picture in which thousands of Oriental players appear—is one of the most gigantic tasks ever undertaken by Metro-Goldwyn-Mayer.

Elaborate Stages

Sidney Franklin directed the ambitious production, filmed on locations covering hundreds of acres on which farm villages, towns, and even a large city in China were reproduced.

Muni plays Wang Lung the farmer, Star of "Louis Pasteur," "I Am a Fugitive," "Dr. Socrates" and other distinguished screen character roles, his new Chinese characterization in "The Good Earth" is one of his most outstanding feats.

Luise Rainer, Viennes heroine of "Escapade" and the Anna Held of "The Great Ziegfeld," plays the intensely dramatic role of the wife, O-Lan.

Prominent Players

Prominent players in the large supporting cast include Walter Connolly as the uncle, the European dancer Tilly Losch, as Lotus, Charley Grapewin as the old father, Jessie Ralph as Cuckoo, Soo Yong as the aunt, Keye Luke as the elder son, Roland Dui as the younger son, Suzanna Kim as Little Fool, Chingwah Lee as Ching, Harold Huber as the cousin, Olaf Tytten as the grain merchant, William Law as the gateman and Mary Wong as the little bride.

Chinese Actors

General Theodore Tu, loaned by the Chinese government as technical aide traveled all over the Pacific Coast with Muni, recruiting Chinese players from among farmers, business folks and others who spoke English. More than three hundred tests were made. Aside from the nine principal characters there are 68 speaking parts, all filled by Chinese players most of whom never appeared before a camera previously, and thousands of extras.

City Life Tragic

The story of "The Good Earth" deals with Wang Lung, a poor farmer

who is given O-Lan, a slave girl, for wife. Her devotion and tireless effort help him to prosper. The famine destroys the farms and Wang and O-Lan go to the city. The Republican uprising makes the city a turmoil and during the mob hysteria O-Lan succeeds in getting jewels from a looted house. The jewels make them wealthy. They return to their village in which Wang becomes an overlord. Then he takes a second wife and apes other tricks of the rich, to find, on the death of the faithful first wife, the estrangement of his son, and other evils, that his life as a farmer was all that counted.

Dramatic Moments

Huge crowd scenes include the uprising in the teeming city, the looting, the exodus of a population from the stricken drought area. The dramatic highlights include the marriage of the rich man's house, the injury of the wife, the discovery of the second wife's friendship for the eldest son, and the death of the faithful wife on the eve of the eldest son's wedding.

Best Seller

Pearl S. Buck's novel, "The Good Earth," is one of the greatest best-sellers of the last decade. It is the recipient of two prizes, having been selected as the Book of the Month and also winning the Pulitzer Prize for the best novel of the year.

It was adapted to the stage by Owen Davis and Donald Davis, and was presented by the Theatre Guild with Nazimova and Claude Rains featured in the stage cast.

FARM CLUB NOTES

Summer sun and dust can not ruin Geraldine Sneed's nice dresses that are hung in her closet between infrequent occasions for wearing because she has them well protected with slip over dress covers.

Geraldine made her covers from heavy wrapping paper, and made them to fit completely over the garments. The covers are sloped at the shoulders to fit the coat hangers and have holes in the top just large enough for the handle of the coat hangers to come through.

As soon as possible, Geraldine intends to replace these temporary paper covers with some made of cloth which will be more durable and will give better protection, and will be easier to put over the dresses. She will make them of cretonne, cotton print, sugar sacks, or the ends of worn out sheets.

The cloth ones will be more like a bag than the paper ones are. They will be longer than her dresses and will have the ends sewed together. They will be open either in the center of one half along one side so that they will be easy to slip over the dresses. The opening will be held together either by ties or buttons.

Geraldine is the wardrobe demonstrator for the North Elm 4H club.

The stylish wide brimmed straw hats this season give extra worries to the problem of hat storage but Mary Alice Modesette, wardrobe demonstrator for the Sharp 4H club, finds that her hat-stand made out of beaver board have solved the problem for her. Each hat stand is made from two pieces of beaver board cut

"We Have It"

THE FIGHT IS ON—

A fight for existence, a fight to bring the truth to the common people, a fight from start to finish.

In the past three issues I have been telling you how I was curing the sick and afflicted. Only two brave men within the entire month came and both are completely cured.

Those are your own citizens and tax payers whom most of you in Milam county have known since childhood, namely Fred Matula and J. E. Walker. Each has suffered for years with ill health and untold agony.

The different ailments for which they were treated were: Kidney Stones, Liver Trouble, Rheumatism, Backaches, Ulcerated Intestines and Stomach, Chronic Constipation, Headaches, Cramps in the Legs and Foot Trouble.

Now the rest of you look from the corner of your eye.

There are only two types of people. One is the

ignorant and skeptic who hides in a corner. The result is he dies a premature death. The other is the liberal minded who is open to conviction.

That doesn't necessarily mean the educated, for sad to say we find some of the very best educated people who are very intolerant, unkind, selfish and despotic. They stand aloof and are against every moral thing with reproof. "Of course those types of people are not found in Cameron."

Naturopathy cleans the system of filth. Naturopathy restores normal circulation. Naturopathy stimulates glandular secretions and builds clean blood through selective diet.

That is now Father Knip, a Catholic Priest, the founder of Naturopathy in the 15th Century in Germany made his marvelous cures.

Yours truly,

DR. BRODEN,

in the "outside," and returns to her hamlet eager to bring health and education to at least the children of the backwoods. Her one sympathizer and aide in this is Guy Kibbee, a genial old physician.

Her worst enemy and opponent is her father, played by Robert Barrat, a bitter fanatic who hates everything taught by "furriners."

He doesn't hesitate to enforce his hold upon his two daughters—little Marcia Mae Jones is the youngest one—by lashings with a bullwhip.

Things come to such a pass that the elder daughter, Miss Hutchinson, in a fight for her own life is obliged to kill her father. George Brent, a brilliant young attorney who has met her in New York and learns to love her, comes to her rescue and defends

her at her trial for murder.

But there is not even justice in this ignorant region, and she is convicted and sentenced to a long term in prison.

By a thrilling stratagem, she is removed from the prison and flown to another State, whose Governor refuses to grant extradition papers, so she remains free.

Amendments

(Continued from page 1)

comparison to the number have become members of the federal system. One of the great errors of modern times was the destruction of the Guaranty Fund law in Texas.

Objections to the proposed amendment are fundamental. In the first place the state banking system is moving to lose of its identity by merging gradually with the national system. If State banks were all members of the deposit guarantee system by requirement there would be no necessity to ask this double liability. If a State bank does not become a member of the federal guarantee system, then some demand must be made for guarantee of safety of deposits. Those who handle other people's money should have no objection to these extra guarantees. If no guarantees are exacted lack of confidence will follow. No banks in Milam county will be affected if this amendment fails as all have joined the federal guarantee system.

Amendment No. 1 is a bad proposal and should be defeated. Vote against it.

Amendment No. 2.

Amendment No. 2 proposes to pay to each destitute child in Texas the sum of \$8 per month and not more than \$12 to any family of such destitute children. It provides that the state cannot pay out in any one year more than one million five hundred thousand dollars. The amendment also would give the state authority to accept a like amount from the federal government. The wisdom of tax levies to underwrite the economic status of the individual is open to question. The tendency is socialistic and communistic, although political advantage and sentiment argue for any legislation that permits politicians to hand out something free to the people.

Several years ago Texas voted Fifty Millions in Bread Bonds. Now we know that not one single human in Texas would have suffered starvation if these bonds had not been voted. Yet, we would enslave our children with debt to satisfy an impulse of the moment. There are ways and means to take care of needy children without setting up state charity paid for by tax funds. The fundamentals of charity is the individual impulse. Aid paid for by taxation will destroy one of the greatest of human traits, so says the religious code. We have witnessed one of the most shameful failures in our history over the administration of the Old Age Pension fund. Hundreds of thousands have never been paid a penny. How then can we take on more obligations of this kind to be paid for out of taxes? This amendment is a bad one and should be defeated. Vote Against It!

Amendment No. 3

Amendment No. 3 on the ballot proposes to abolish the present sys-

tem of paying public officials and leaves the manner and method up to the Legislature. Ordinarily this is fatal to the public purse. Powerful lobbies of public officials may dictate the terms, but the purpose of this amendment may not be lost sight of, if it is adopted. Two years ago the state adopted the salary system and abandoned the fee system. The result was disaster to counties like Milam. Nearly \$20,000 was paid from the general fund for salaries over the earnings of fees paid into the county treasurer. It may be necessary to raise taxes to pay this bill.

Officers generally over the state have not been active. Their salaries are paid regardless. Under the fee system office holders earned their own pay. The fee system has many evils. So has the present system of paying fat salaries out of county funds. The legislature would fix the method of paying and the purpose would be to relieve counties of the burden now imposed. The present system is bankrupting many counties. This amendment is a good one and should be adopted. Vote for No. 3 on the Ballot!

Amendment No. 4

Amendment No. 4 is probably the worst amendment ever submitted to the people of Texas. It would destroy the power of cities and counties to raise revenue for their governments and provide a way for defeat of every value placed on property by equalization boards. In brief this amendment provides that no value shall be placed on property in excess of its cash market value. Valuable property often has no cash market value. This amendment would breed controversy and stagnation of the government. It also provides that the legislature shall make it lawful for state counties and cities to allow 3 per cent discount on taxes paid 90 days before due. Honest debts are assumed to be payable without inducements. It is an effort to circumvent the scandal of delinquencies in Texas. This amendment is a bad one and should be defeated. Vote against it!

Amendment No. 5

Amendment No. 5 is a strange submission yet can be explained by those who advocate it. It seeks to give to Harris county or any road District in the county authority to vote for and levy a tax not to exceed 5 years for roads, bridges, etc. It provides that the county or districts may increase or diminish the tax as the vote indicates. In brief this amendment seeks to give authority to levy a tax in any amount desired and removes the constitutional limit in Harris county. This is a bad amendment. The people of Texas should not abandon, in a single instance, the curb on taxing power. The claim that it affects only Harris county, is half true and half false. Harris county or any other county has the power now under the constitution to make any im-

provement necessary. The funds sought can be obtained through boards of equalization by increasing property values. When tax money beyond the power of the constitution is needed, grave problems confront the property owner. Any amendment to the Constitution concerns all Texas. This amendment is a bad one and should be defeated. Vote Against It!

Amendment No. 6

Amendment No. 6 is objectionable for the same reason that Amendment No. 2 should be defeated. This amendment would pay to all blind in Texas the sum of \$15 per month and provides that the state may accept federal funds for the same purpose. Why payments should be made to only those who are above 21 lacks explanation. There are ways already provided whereby blind may be assisted and there is no need to extend the already insurmountable burden of tax levies to support the individual. There is further objection. Taking on of new classes of dependents upon state support increases departments and administrative expense. It would create a political monopoly equal to the Soviet regime in Russia. This amendment has a sentimental appeal. It is not politically popular to oppose it. "Put me on the pay roll and I will vote for you," is leading Texas to ruin. Vote against this amendment!

Things to Come

To the score of uses housewives find for tomato paste is soon to be added another. A new type of tomato paste is being perfected which, simply diluted with water, makes as delectable juice as that made in the usual ways. While food scientists are credited with this innovation it's partly due, they claim, to the work of horticulturists who have recently grown a tomato—originally native to Italy—with a chemically balanced food content, and to certain refinements in the canning process. In form the tomato resembles a pear and when canned whole it keeps its shape so that it may be used for salads or even stuffed.

Dear Friends:

Although a number of matters always come up in confusing rapidity as Congress approaches adjournment, I have for another week devoted most of my time to the cotton price situation. There have been many meetings and caucuses of various Southern groups working on this problem and I have sought to attend as many as possible of these meetings that I might keep myself informed and render whatever service I could. On yesterday, Secretary Wallace appeared before the Senate Committee and last night this committee met and gave a favorable report to the resolution which Mr. Wallace had discussed and recommended earlier in the day. I attended both of these meetings.

The Secretary insisted that Congress should go further than the President had asked last week in the way of assurance in regard to general farm legislation at the next session. In an effort to meet these conditions the Senate Committee favorably reported a concurrent resolution which would bind both houses to make farm legislation the first order of business at the next session, whether this be a called session this fall or the regular session in January. This was known as the Bilbo resolution.

The Committee also gave favorable report to a resolution providing for mandatory ten cent loans and two cents parity payments to co-operators after the order of the 1935 plan. A sub-committee was appointed to call on the President, which it did today, and I am advised that the President agreed that on the passage by both houses of the Bilbo resolution, he would have no objection to the passage of the other resolution. This would, of course, result in guaranteeing a 12c price to co-operating producers. I think there will be little trouble in getting the Bilbo resolution through and believe that it can be successfully followed by the resolutions, although there are a number of Northern Congressmen who are frankly apathetic. However, the whole situation looks much better tonight than it has since the very beginning, and I am very hopeful that our people will receive a fair price for cotton this fall.

Last week the House passed a sugar bill, which I hope to discuss at some later time, as it involves several important matters. Early this week the House concurred in the Senate amendments to its Judiciary Bill, therefore, finally passing the much-discussed Court Bill and writing into law most of the President's suggestions in regard to judicial reform, except the increased membership of the Supreme Court.

Just tonight the House has voted by an over-whelming vote to pass the Departmental reorganization Bill requested by the President. This bill as passed gives the President the power to consolidate one hundred or more independent agencies with regular departments of government. It also creates a new department, known as the welfare department. Personally, I felt there was no need of creating a new department and voted for an amendment to strike that section out of the Bill. This amendment failed, however, and I then voted for the Bill, because I realized that dozens of these independent boards and bureaus should be consolidated and other dozens abolished. I further realize that Congress will not abolish them one at a time because each one trades out with the other and a bill like this seems to be the only way of getting it done. This bill at least, gives the President power to effect substantial saving in governmental operations. It will, however, result

in less government jobs and those of our people who are applying for government positions must remember that so long as governmental agencies are being reduced in number, and I think they should be reduced, it is very difficult, indeed, to get a government position.

It now seems Congress may adjourn within the next week or ten days. If the loan and parity is assured to the cotton farmers, I shall be ready to leave at that time, but I do not want to leave until I know that this relief is assured.

Baptist Encampment Succeeds As Goals Are Reached; Much Progress Is Reported

The Milam County Baptist Encampment for 1937 left a feeling of satisfaction in the hearts of the promoters because the goals and accomplishments were reached. While the number of campers was not as large as in the first few years, it was greater than in the last few. The Burlington church had the banner camp, having forty-five enrolled.

Greater plans are being made for the next encampment which is set for July 31 to August 5, 1938, at Wayside Park. Every one appreciated the generosity of Mr. Lamkin in permitting the use of these grounds.

The study courses included classes for all ages from primary to adult. The teachers spared no effort in making the instruction interesting and helpful.

Evangelism

The morning and evening services were evangelistic. The morning sermons were brought by the District Missionary and pastors of the association in camp. The evening messages were from ministers in District 15, with the exception of Dr. Davis, Bible teacher of Howard Payne College. He took us by surprise and had to preach one morning and night. A shower of rain Thursday night ran the service to the Baptist church in Cameron where Dr. Gordon G. Singleton new president of Mary Hardin-Baylor brought the message.

The afternoons were given to games and swimming.

The unusual and outstanding features were:

The sunrise prayer service each morning.

The Association Workers Conference on Monday.

Council Launched

The Young Peoples Council Thursday afternoon with 75 in attendance. The District Young Peoples Leader, Mrs. W. A. Dollahite of Bremond and Mrs. Bess DuBois Barron of Bryan, brought inspirational messages that inspired a desire to reach out and contact all young people in the county. The vote was unanimous to organize an associational young peoples council. A nominating committee was appointed, to report at a called meeting of the council, the first Tuesday in September, 6:30 p. m. on the lawn of the Cameron Baptist Church, when the organization will be completed.

Play Is Given

The closing feature of the Encampment, Friday night was the play written by Mrs. Vinning of Baylor University on the Relief and Annuity Fund, called "God Will Provide." It was most acceptably presented by some of the young people of the Cameron Church.

Officers Elected

The following officers of the Encampment were elected for the ensuing year.

President—Mr. L. W. Sample, Cameron.

1st Vice President—Rev. Joseph

D. Underwood, Yarellton.

2nd Vice President—Rev. Levi W. Price, Walkers Creek

3rd Vice President—Mr. J. C. Mayfield, Cameron.

Secretary—Miss Ray Fanning, Cameron

Treasurer—Mr. L. W. Sample, Burlington.

Regarding our retiring president, Rev. C. O. Gillis we regret to give him up, also his estimable wife. They have heard the Lord's call to the mission fields in Buenos Aires, Argentina, South America. Our prayers and interests will go with them.

Fair Dramatizes Freeing of Americas

America's history, from date of discovery by Columbus from the deck of the Santa Maria (pictured above) is told in vivid pageantry in the Cavalcade of the Americas at the Pan American Exposition, in Dallas, June 12-October 31.

Liberation of the Americas is the theme of this spectacle, told in Patrick Henry's stirring "Liberty or Death" speech.

Leadership of his country's cause rested on George Washington, shown in this Cavalcade scene with Martha Washington.

Marching across the pages of history in drama are liberators of South America—San Martin and Bolivar.

Down to date with the good neighbor policy, Cavalcade is climaxed with the Buenos Aires peace address of President Roosevelt.
